Financial Report
For the Three and Nine Months Ended
September 30, 2022

Note: This report is intended to be read in conjunction with our Annual Report to Stockholders for the year ended December 31, 2021, copies of which are included on this website. This report is dated September 30, 2022 and should not be read to cover any subsequent periods. We specifically disclaim any obligation to update this report even if the contents thereof should become misleading.

This report has not been prepared in accordance with Securities and Exchange Commission rules applicable to public companies and is not intended to comply with such rules.

AMB Financial Corp
And Subsidiaries

Status as Non-Reporting Company. We are not subject to the reporting requirements of Section 13 of the Securities Exchange Act of 1934 and accordingly this report has not been prepared in accordance with applicable Securities Exchange Commission rules. This report is intended to cover the three and nine month periods ended September 30, 2022 and should not be read to cover any other periods.

Notes to Consolidated Financial Statements. The accompanying unaudited consolidated financial statements have been prepared based on accounting principles generally accepted in the United States of America and in the opinion of management contain all adjustments (all of which are normal and recurring in nature) necessary for a fair presentation. The results of operations for the three and nine months ended September 30, 2022 are not necessarily indicative of the results expected for the year ending December 31, 2022. The September 30, 2022 consolidated financial statements should be read in conjunction with the consolidated financial statements and notes for the year ended December 31, 2021 included in the Company's Annual Report. The Company's consolidated statement of condition as of December 31, 2021 has been derived from the Company's audited consolidated statement of condition as of that date.

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that could have a material effect on the carrying value of certain assets and liabilities. These estimates and assumptions affect the amounts reported in the consolidated financial statements and the disclosures provided. The determination of the allowance for loan losses, valuations and impairments of investment securities, and the accounting for income tax expense are highly dependent on management's estimates and assumptions where changes in any of these could have a significant impact on the financial statements.

The consolidated financial statements include the accounts of AMB Financial Corp. (the "Company"), and its wholly owned subsidiary, American Community Bank of Indiana (the "Bank").

Earnings per Share. Earnings per share for the three and nine month periods ended September 30, 2022 and 2021 were determined by dividing net income available to common shareholders for the periods by the weighted average number of both basic and diluted shares of common stock, as well as common stock equivalents outstanding.

Reclassifications. Certain 2021 items or amounts may have been reclassified or restated to conform to the 2022 presentation.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements. The Company and the Bank may from time to time make written or oral "forward-looking statements." These forward-looking statements may be included in this Financial Report, which are made in good faith by us. These forward-looking statements include statements about our beliefs, plans, objectives, goals, expectations, anticipations, estimates and intentions, which are subject to significant risks and uncertainties, and are subject to change based on various factors, some of which are beyond our control. The words "may," "could," "should," "would," "believe," "anticipate," "estimate," "expect," "intend," "plan" and similar expressions are intended to identify forward-looking statements. The following factors, among others, could cause our financial performance to differ materially from the plans, objectives, expectations, estimates, and intentions expressed in the forward-looking statements:

- The current condition of the United States economy in general and in our local economy (including unemployment) in which we conduct operations;
- the effects of, and changes in, trade, monetary and fiscal policies, and laws, including interest rate policies of the Federal Reserve Board and the United States Treasury (“UST”);
- our ability to manage and reduce our non-performing assets;
- our ability to repay our holding company debt, including our $3 million of trust preferred stock, when due;
- the impact of new laws and regulations on financial institutions, the lending market, and our regulatory agencies;
- the impact of new regulations imposed by the Federal Reserve System, the Federal Deposit Insurance Corporation (“FDIC”) and the State of Indiana Department of Financial Institutions;
- future deposit premium levels;
- future loan underwriting and consumer protection requirements including those issued by the Consumer Financial Protection Bureau;
- inflation, interest rate, market and monetary fluctuations and its impact on our interest rate sensitive balance sheet;
- the future financial strength, dividend level and activities of the FHLB of Indianapolis in which we own stock and from which we borrow money;
- the timely development of and acceptance of our new products and services and the perceived overall value of these products and services by users, including the features, pricing and quality thereof compared to competitors’ products and services;
- the willingness of users to substitute our products and services for products and services of our competitors;
- our ability to reinvest our cash flows in today’s interest rate environment;
- our success in gaining regulatory approval of our products and services, when required;
- the impact of changes in financial services’ laws and regulations (including laws concerning taxes, banking, securities, and insurance);
- the impact of technological changes;
- competition from other financial service providers in the Company’s market area;
- the success of our executives in managing our business operations;
- the success of our loan restructuring and work out arrangements;
- our ability to accurately estimate the value of our assets and the appropriate level of our allowance for loan losses;
- our ability to lease space in our branch facilities when vacancies occur; and
- future changes in consumer spending and saving habits.
- The COVID-19 pandemic has caused substantial disruption to the global, national, and local economies which may have an adverse effect on the Company’s business and results of operations. The future impacts of the COVID-19 pandemic on the global economy and the Company’s business, results of operations and financial condition remains uncertain.

The list of important factors stated above is not exclusive. We do not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company or the Bank.

Financial Condition. Total assets of the Company were $319.4 million on September 30, 2022, an increase of $31.4 million, from $288.0 million on December 31, 2021.

Cash and cash equivalents, which consist primarily of interest-earning deposits, totaled $18.9 million on September 30, 2022, a decrease of $26.9 million, from $45.8 million on December 31, 2021. Cash and cash equivalents can fluctuate significantly on a day-to-day basis due to cash demands, customer deposit levels and loan and investment activity.

Investment securities, available for sale, increased $2.8 million to $13.2 million on September 30, 2022, from $10.4 million on December 31, 2021. The increase was the result of new purchases of $6.2 million, offset, in part, by repayments of $1.5 million. The Company recorded an unrealized loss on available for sale investment securities of $1.7 million on September 30, 2022 compared to a $27,000 unrealized gain on December 31, 2021. The change was due to an increase in market interest rates. These amounts are included as part of the carrying cost of investment securities, available for sale, at each respective period.

The Bank is a member of the FHLBI and had a $2.7 million investment in stock of the FHLBI on September 30, 2022, a $10,400 decrease from the $2.7 million on December 31, 2021. Members are required to own a certain amount of stock based on the level of borrowings, participation in the FHLBI mortgage purchase program, and other factors. The investment is carried at par value, as there is not an active market for FHLBI stock.

Net loans receivable totaled $267.8 million on September 30, 2022, a $55.3 million increase from the $212.5 million balance on December 31, 2021. Loans held for sale totaled $255,000 on September 30, 2022, a $402,000 decrease from the $657,000 balance on December 31, 2021. The Company originated $16.2 million of loans held for sale which were subsequently sold during the nine month period ended September 30, 2022, as compared to $75.3 million during the prior year period. The decrease in loan sales is primarily due to the increase in interest rates which has reduced refinancing activity. Loans originated for sale are fixed-rate, single-family mortgage loans, which are sold to manage interest rate risk and generate fee income.

The determination of the allowance for loan losses involves material estimates that are susceptible to significant change in the near term. The allowance for loan losses is maintained at a level appropriate to absorb management's estimate of probable incurred losses inherent in the loan portfolio. The provision for loan losses is based upon management's quarterly review of the loan portfolio. The purpose of the review is to assess loan quality, identify impaired loans, analyze delinquencies, ascertain loan growth, evaluate potential charge-offs and recoveries, and assess general economic conditions in the markets that the Company serves. To determine the appropriate level for the allowance for loan losses, management applies historical loss percentages to performing residential real estate, nonresidential real estate, consumer, and commercial business loan balances. In addition, nonperforming loans are evaluated for current collateral deficiencies. When such loans are found to have collateral deficiencies, the deficiency is charged-off to the allowance for loan losses. Management evaluates the results of the allowance for loan losses by applying the historical and subjective loss factors to the current loan balances and identifying any required collateral deficiency reserves for the period. Based upon this analysis, management will record any required loan loss provisions to establish the appropriate level for the allowance for loan losses.

The allowance for loan losses totaled $2,743,000 on September 30, 2022, representing a $173,000 increase as compared to December 31, 2021. The Bank's allowance for loan losses to total loans was

1.01% on September 30, 2022 as compared to 1.19% on December 31, 2021. Management believes that the allowance for loan losses is adequate to meet probable incurred loan losses in the portfolio. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in information and economic conditions. In addition, both the FDIC and the Indiana Department of Financial Institutions, as an integral part of their examination process, will periodically review the Bank's allowance for loan losses and may require the Bank to recognize additions to the loan loss allowance based upon their judgments about information available to them at the time of their examination.

The following table sets forth the activity in the allowance for loan losses for the nine months ended September 30, 2022 and 2021.

	Nine Months Ended Sept. 30, 2022	Nine Months Ended Sept. 30, 2021
Balance at beginning of period:	$2,570,000	$2,475,000
Charge-offs:		
Total charge-offs	-	-
Recoveries:		
One- to four family	81,979	68,027
Consumer	-	812
Commercial business	-	52
Total recoveries	81,979	68,891
Net recoveries (charge-offs)	81,979	68,891
Provisions for loan losses	90,989	9,109
Balance at end of period	$2,742,968	$2,553,000
Ratio of net recoveries during the period to average gross loans outstanding during the period	0.03%	0.03%
Ratio of net recoveries during the period to average non-performing loans during the period	19.30%	12.46%

Loans receivable are summarized as follows at the dates indicated:

	September 30, 2022	December 31, 2021
Mortgage loans:		
One-to-four family	$ 78,186,011	$ 56,580,303
Multi-family	4,127,277	4,460,589

The Company has allocated $23,984 and $25,535 of loan loss reserves to customers whose loan terms have been modified in troubled debt restructurings as of September 30, 2022 and December 31, 2021, respectively.

The following table presents loans classified as troubled debt restructurings.

	September 30, 2022	December 31, 2021
Trouble debt restructured loans - accrual loans	208,159	211,814
Total	$ 208,159	$ 211,814

Risk Classification of Loans. The Company's policies, consistent with regulatory guidelines, provide for the classification of loans and other assets that are of lesser quality as substandard, doubtful, or criticized assets designated as special mention.

A substandard asset is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weakness, or weaknesses, which jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected. Risk rating guidance clarifies that a loan with a well-defined weakness does not have to present a probability of default for the loan to be rated substandard, and that an individual loan's loss potential does not have to be distinct for the loan to be rated substandard. An asset classified doubtful has all the weaknesses inherent in one classified substandard with the added characteristic that the weaknesses make collection or liquidation in full, based on currently existing facts, conditions, and values, highly questionable and improbable. Assets classified as loss are those considered uncollectible and of such little value that their continuance as assets is not warranted; such balances are promptly charged-off as required by applicable federal regulations. A special mention asset has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the institution's credit position at some future date. Special mention assets are not adversely classified and do not expose an institution to sufficient risk to warrant adverse classification.

Based on a review of the Company's classified assets, loans classified substandard as well as other real estate owned decreased $50,000 to $409,000 on September 30, 2022 as compared to December 31, 2021.

Non-Performing Loans. Non-performing loans, which consist primarily of those nonaccrual loans which are past due ninety days or more as well as loans less than ninety days past due for which the collectability of principal and interest is in doubt, totaled $409,000, or 0.15% of total loans receivable at September 30, 2022, compared to $441,000, or 0.21% of total loans receivable at December 31, 2021.

Potential Problem Loans. The Company defines potential problem loans as performing loans rated substandard, which do not meet the definition of a non-performing loan. The Company does not necessarily expect to realize losses on potential problem loans but does recognize that potential problem loans carry a higher probability of default and require additional attention by management. As part of its loan review process, the Company evaluates a borrower's financial condition as well as the underlying collateral's cash flows to determine the appropriate loan grade/classification. The Company reviews nonresidential real estate loans, commercial business loans and multiple non-owner occupied single-family loans made to the same borrower to determine if these loans should be classified. As a result of these reviews, no potential problem loans were classified as performing substandard on September 30, 2022 and December 31, 2021.

The ratio of allowance for loan losses to classified and criticized loans was 670.2% on September 30, 2022, compared to 582.0% on December 31, 2021.

Other real estate owned, which is classified substandard, totaled $0 on September 30, 2022 as compared to $18,000 on December 31, 2021. Other real estate owned properties are initially recorded at fair value less estimated cost to sell at acquisition, establishing a new cost basis. If the fair value declines after foreclosure, a valuation allowance is recorded through expense.

Office properties and equipment totaled $9.5 million on September 30, 2022, a $119,000 increase from the balance on December 31, 2021. The increase represents additions totaling $468,000, offset, in part, by normal depreciation of $349,000.

Bank owned life insurance increased $51,000 to $3.8 million on September 30, 2022. The change represents an increase in the cash surrender value of the life insurance policies. The policies were purchased in connection with deferred compensation plans utilized by directors and officers of the Company.

Prepaid expenses and other assets increased $272,000 to $2.3 million on September 30, 2022.

Total deposits increased $35.4 million to $287.0 million on September 30, 2022. The increase in deposits during the period was due to a $38.8 million increase in checking deposits, a $3.6 million increase in money market accounts and a $0.7 million increase in passbook deposits, offset, in part, by a $7.7 million decrease in certificates of deposit accounts. At September 30, 2022, the Bank's core deposits (passbook, checking and money market accounts) comprised $235.8 million, or 82.2% of deposits, compared to $192.7 million, or 76.6% of deposits, on December 31, 2021. Most of the Bank's deposits are derived from core client sources, relating to long-term relationships with local individuals, businesses, and municipal entities. The Company does not utilize brokered deposits.

Borrowed money, which consists of FHLBI advances, totaled $0 on September 30, 2022 as compared to $5.0 million on December 31, 2021. During the current period, the Company pre-paid a $5.0 million borrowings from the FHLBI.

The Company's trust preferred subordinated debentures remained unchanged totaling $3.1 million on September 30, 2022. The interest rate payable on the debentures adjusts quarterly to the three month LIBOR plus 1.65% and was 4.94% on September 30, 2022. These debentures have a contractual maturity date of June 15, 2037 and the Company has the right to redeem the debentures, in whole or in part, on any interest payment date.

Other liabilities increased $37,000 totaling $3.0 million on September 30, 2022 as compared to December 31, 2021.

Total stockholders' equity increased $967,000 to $26.4 million, or 8.26% of total assets on September 30, 2022, compared to $25.4 million, or 8.83% of total assets, on December 31, 2021. The increase in stockholders' equity was attributable to $2.1 million of net income for the nine month period ended September 30, 2022, a $92,000 increase in paid-in-capital, cash dividends of $94,000 paid to common shareholders, a $1.1 million decrease in the unrealized gain on available for sale securities, net of tax, and a $50,000 increase in treasury stock. The number of common shares outstanding on September 30, 2022 totaled 922,354 as compared to 923,053 at December 31, 2021. During the nine month period ended September 30, 2022, the Company repurchased 3,910 common shares at an average cost of $22.58 per share. The shares were retired as treasury stock. The book value per common share outstanding on September 30, 2022 was $28.61. The Bank's Tier 1 leverage capital ratio, risked-based common equity Tier 1 capital ratio, risk-based Tier 1 capital ratio and risk-based total capital ratio percentages of 8.92%, 10.64%, 10.64% and 11.66%, respectively, at September 30, 2022 exceeded all regulatory requirements and categorize the Bank as well capitalized under applicable regulations.

Comparison of the Results of Operations for the Quarter Ended September 30, 2022 and September 30, 2021

General. Net income for the quarter ended September 30, 2022 was $913,000, or $0.98 per diluted common share, a decrease of $39,000, compared to $952,000, or $1.02 per diluted common share, for the same period in 2021. The decrease in the current quarter net income compared to the prior year quarter was the result of a $209,000 decrease in non-interest income, offset, in part, by a $92,000 increase in net interest, a $67,000 decrease in non-interest expense, and a $11,000 decrease in income tax expense.

Interest Income. Total interest income increased $325,000 to $3.4 million for the quarter ended September 30, 2022, from the prior year quarter as the result of a $47.9 million increase in the average balance of interest-earning assets outstanding, offset, in part, by a 29 basis point decrease in the weighted average yield on interest-earning assets to 4.37%.

Interest income on loans receivable increased $123,000 to $3.1 million for the quarter ended September 30, 2022, as compared to the prior year quarter as the result of a $51.5 million increase in the average balance of loans outstanding, offset, in part, by a 93 basis point decrease in the average yield to 4.76%. The yield was impacted by a reduction in SBA PPP fees earned to $6,000 for the quarter ended September 30, 2022, as compared to $710,000 for the prior year quarter. Interest income on investment securities increased $43,000 to $71,000 for the quarter ended September 30, 2022, compared to the prior year quarter. The average outstanding balance of mortgage-backed securities increased $5.0 million, and the average yield increased 46 basis point to 2.24%. The average outstanding balance of other investment securities increased $2.0 million, and the average yield increased 22 basis points to 1.56%. Interest income on interest-bearing deposits increased $142,000 to $158,000 for the quarter ended September 30, 2022, compared to the prior year quarter as the result of a 184 basis point increase in the average yield to 1.99%, offset, in part, by an $11.1 million decrease in the average balance outstanding. Dividend income on FHLBI stock increased $18,000 to $37,000 for the quarter ended September 30, 2022, compared to the prior year quarter due to a $560,000 increase in the average balance outstanding and a 184 basis point increase in the average yield to 5.48%.

Interest Expense. Total interest expense increased $234,000 to $512,000 for the quarter ended September 30, 2022, compared to the prior year quarter as the result of a $45.8 million increase in the average balance of interest-bearing liabilities outstanding and a 24 basis point increase in the average cost to 0.69%.

Interest expense on deposits increased $249,000 to $476,000 for the quarter ended September 30, 2022, compared to the prior year quarter as the result of a $49.9 million increase in the average balance of deposits outstanding and a 27 basis point increase in the average cost of deposits to 0.65%.

Interest expense on borrowings decreased $15,000 to $36,000 for the quarter ended September 30, 2022, compared to the prior year quarter end as the result of a $4.1 million decrease in the average balance of borrowings outstanding, offset, in part, by a 109 basis point increase in the average cost to 3.59%.

Net Interest Income. As a result of the above changes in interest income and interest expense, net interest income increased $92,000 for the quarter ended September 30, 2022, compared to the prior year quarter ended September 30, 2021. The net interest rate spread decreased 53 basis points to 3.68% for the quarter ended September 30, 2022, while the net interest margin, expressed as a percentage of average earning assets, decreased 54 basis points to 3.71% for the quarter ended September 30, 2022.

Provision for Loan Losses. The Company recorded $0 in provision for loan losses for the quarter ended September 30, 2022 as compared to $337 for the prior year quarter. The provision for loan losses is a function of the allowance for loan loss methodology used to determine the appropriate level of the allowance for inherent loan losses after adjusting for loan charge-offs and recoveries. Loan losses are charged-off against the allowance when it is believed that the loan balance, or a portion of the loan balance, is no longer realizable by the paying capacity of the borrower based on an evaluation of available cash resources and collateral value. Recoveries of amounts previously charged-off are credited to the allowance. The Company recorded net recoveries of $18,000 for the quarter ended September 30, 2022, compared to net recoveries of $43,000 for the prior year quarter ended September 30, 2021.

Non-Interest Income. Non-interest income decreased $209,000 to $0.6 million for the quarter ended September 30, 2022, compared to prior year quarter due primarily to a $373,000 decrease in gain on sale of loan income due to decreased volume, a $1,000 decrease in life insurance cash value income, and a $12,000 decrease in rental income, offset, in part, by a $38,000 decrease in loan fee income, a $10,000 increase in deposit fees, a $10,000 increase in other fee income, a $34,000 increase in gains on the early extinguishment of debt, and an $85,000 increase in other income.

Non-Interest Expense. Non-interest expense decreased $67,000 to $2.2 million for the quarter ended September 30, 2022, compared to prior year quarter primarily as the result of a $117,000 decrease in compensation expenses, a $9,000 decrease in advertising expenses, and a $14,000 decrease in other operating expenses, offset, in part, by a $23,000 increase in occupancy expenses, a $5,000 increase in data processing expenses, a $12,000 increase in professional expenses, and a $33,000 increase in FDIC insurance expenses.

Income Taxes. The Company recorded income tax expense of $325,000 for the quarter ended September 30, 2022, resulting in an effective tax rate of 26.2%, compared to income tax expense of $336,000, for an effective income tax rate of 26.1%, for the prior year quarter. The decrease in the current quarter income tax expense was impacted by a $50,000 decrease in net income before income taxes as compared to the prior year's period.

Analysis of Net Interest Income. Net interest income represents the difference between interest earned on interest-earning assets and interest paid on interest-bearing liabilities. Net interest income is affected by the relative amounts of interest-earning assets and interest-bearing liabilities, and the interest rates earned or paid on them.

The following table presents, for the periods indicated, the total dollar amounts of interest income from average interest-earning assets and the resultant yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates. No tax equivalent adjustments were made. All average balances were calculated using average daily balances and include non-accruing loans.

Comparison of the Results of Operations for the Nine Months Ended September 30, 2022 and September 30, 2021

General. Net income for the nine months ended September 30, 2022 was $2.1 million, or $2.24 per diluted common share, a decrease of $908,000, compared to $3.0 million, or $3.13 per diluted common share, for the same period in 2021. The decrease in the current nine months net income compared to the prior year nine months was the result of a $1.7 million decrease in non-interest income and an $82,000 increase in the provision for loan losses, offset, in part, by a $430,000 increase in net interest income, a $68,000 decrease in non-interest expense and a $335,000 decrease in income tax expense.

Interest Income. Total interest income increased $457,000 to $8.6 million for the nine months ended September 30, 2022, from the prior year nine months as the result of a $39.1 million increase in the average balance of interest-earning assets outstanding, offset, in part, by a 36 basis point decrease in the weighted average yield on interest-earning assets to 3.91%.

Interest income on loans receivable increased $89,000 to $8.1 million for the nine months ended September 30, 2022, as compared to the prior year nine months as the result of a $28.4 million increase in the average balance of loans outstanding, offset, in part, by a 57 basis point decrease in the average yield to 4.56%. The yield was impacted by a reduction in SBA PPP fees earned to $110,000 for the nine months ended September 30, 2022, as compared to $1.3 million for the prior year nine months. Interest income on investment securities increased $85,000 to $162,000 for the nine months ended September 30, 2022, compared to the prior year nine months. The average outstanding balance of mortgage-backed securities increased $3.4 million, and the average yield increased 12 basis point to 1.94%. The average outstanding balance of other investment securities increased $2.7 million, and the average yield increased 17 basis points to 1.54%. Interest income on interest-bearing deposits increased $240,000 to $274,000 for the nine months ended September 30, 2022, compared to the prior year nine months as the result of a $3.7 million increase in the average balance outstanding and a 73 basis point increase in the average yield to 0.85%. Dividend income on FHLBI stock increased $43,000 to $83,000 for the nine months ended September 30, 2022, compared to the prior year nine months due to a $0.9 million increase in the average balance outstanding and a 106 basis point increase in the average yield to 4.14%.

Interest Expense. Total interest expense increased $27,000 to $1.0 million for the nine months ended September 30, 2022, compared to the prior year nine months as the result of a $37.2 million increase in the average balance of interest-bearing liabilities outstanding, offset, in part, by a 6 basis point decrease in the average cost to 0.50%.

Interest expense on deposits increased $67,000 to $0.9 million for the nine months ended September 30, 2022, compared to the prior year nine months as the result of a $41.8 million increase in the average balance of deposits outstanding, offset, in part, by a 4 basis point decrease in the average cost of deposits to 0.44%.

Interest expense on borrowings decreased $40,000 to $143,000 for the nine months ended September 30, 2022, compared to the prior year nine months as the result of a $4.6 million decrease in the average balance of borrowings outstanding, offset, in part, by a 68 basis point increase in the average cost to 2.85%.

Net Interest Income. As a result of the above changes in interest income and interest expense, net interest income increased $430,000 for the nine months ended September 30, 2022, compared to the prior year nine months ended September 30, 2021. The net interest rate spread decreased 30 basis points to 3.41% for the nine months ended September 30, 2022, while the net interest margin, expressed as a percentage of average earning assets, decreased 30 basis points to 3.43% for the nine months ended September 30, 2022.

Provision for Loan Losses. The Company recorded $91,000 in provision for loan losses for the nine months ended September 30, 2022 as compared to $9,000 for the prior year nine months. The provision for loan losses is a function of the allowance for loan loss methodology used to determine the appropriate level of the allowance for inherent loan losses after adjusting for loan charge-offs and recoveries. Loan losses are charged-off against the allowance when it is believed that the loan balance, or a portion of the loan balance, is no longer realizable by the paying capacity of the borrower based on an evaluation of available cash resources and collateral value. Recoveries of amounts previously charged-off are credited to the allowance. The Company recorded net recoveries of $82,000 for the nine months ended September 30, 2022, compared to net recoveries of $69,000 for the prior year nine months ended September 30, 2021.

Non-Interest Income. Non-interest income decreased $1.7 million to $1.5 million for the nine months ended September 30, 2022, compared to prior year nine months due primarily to a $1.7 million decrease in gain on sale of loan income due to decreased volume, a $12,000 decrease in other fee income, a $47,000 decrease in rental income and a $205,000 decrease in gains on the sale of other real estate owned. These decreases were offset, in part, by a $162,000 increase in loan fee income, a $28,000 increase in deposit fees, a $34,000 increase in gains on the early extinguishment of debt, and a $109,000 increase in other income.

Non-Interest Expense. Non-interest expense decreased $68,000 to $6.2 million for the nine months ended September 30, 2022, compared to prior year nine months primarily as the result of a $76,000 decrease in staffing compensation expenses, a $51,000 decrease in advertising expenses, an $8,000 decrease in professional expenses and an $80,000 decrease in other operating expenses. These decreases were offset, in part, by an $83,000 increase in occupancy expenses, an $8,000 increase in data processing expenses, a $50,000 increase in FDIC insurance expense, and a $6,000 increase in other insurance expenses.

Income Taxes. The Company recorded income tax expense of $708,000 for the nine months ended September 30, 2022, resulting in an effective tax rate of 25.3%, compared to income tax expense of $1.0 million, for an effective income tax rate of 25.8%, for the prior year nine months. The decrease in the current nine months income tax expense was impacted by a $1.2 million decrease in net income before income taxes as compared to the prior year's period.

Analysis of Net Interest Income. Net interest income represents the difference between interest earned on interest-earning assets and interest paid on interest-bearing liabilities. Net interest income is affected by the relative amounts of interest-earning assets and interest-bearing liabilities, and the interest rates earned or paid on them.

The following table presents, for the periods indicated, the total dollar amounts of interest income from average interest-earning assets and the resultant yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates. No tax equivalent adjustments were made. All average balances were calculated using average daily balances and include non-accruing loans.

Yield Analysis

(Dollars in thousands)

	Nine Months Ended September 30, 2022			Nine Months Ended September 30, 2021		
	Average Balance	Interest	Average Yield/ Cost	Average Balance	Interest	Average Yield/ Cost

Capital Standards.

As a state chartered commercial bank, the Bank's deposits are insured up to the applicable limits by the Federal Deposit Insurance Corporation ("FDIC"). The Bank is a member of the Federal Home Loan Bank ("FHLB") of Indianapolis, which is one of the twelve regional banks comprising the FHLB system. The Bank is regulated by the FDIC and the State of Indiana Department of Financial Institutions. The Holding Company is regulated and examined by the Board of Governors of the Federal Reserve System ("FRB"). Such regulation and supervision establish a comprehensive framework of activities in which an institution can engage and is intended primarily for the protection of the insurance fund and depositors. The regulatory structure also gives the regulatory authorities extensive discretion in connection with their supervisory and enforcement activities. Any change in such regulation, whether by the FDIC, State of Indiana Department of Financial Institutions, the FRB or Congress could have a material impact on the Company and its operations.

In July 2013, federal bank regulatory agencies issued a final rule that revised the leverage and risk-based capital requirements and the method for calculating risk-weighted assets to make them consistent with agreements that were reached by the Basel Committee on Banking Supervision and certain provisions of the Dodd-Frank Act. Among other things, the rule establishes a Tier 1 leverage adequately capitalized ratio of 4.0% (well capitalized ratio of 5.00%), a risked-based common equity Tier 1 adequately capitalized ratio requirement of 4.50% (well capitalized ratio of 6.50%), a risked-based Tier 1 adequately capitalized capital ratio requirement of 6.00% (well capitalized ratio of 8.00%) and a risk-based total capital adequately capitalized ratio of 8.00% (well capitalized ratio of 10.00%). The final rule also required unrealized gains and losses on certain "available-for-sale" securities holdings to be included for purposes of calculating regulatory capital requirements unless a one-time opt-in or opt-out is exercised. The Bank elected to opt-out regarding the aforementioned. The rule limits a banking organization's capital distributions and certain discretionary bonus payments if the banking organization does not hold a "capital conservation buffer" consisting of 2.5% of common equity Tier 1 capital to risk-weighted assets in addition to the amount necessary to meet its minimum risk-based capital requirements.

This final rule became effective for the Bank on January 1, 2016 and continues to maintain the exemption of consolidated capital requirements for bank holding companies, such as the Company.

At September 30, 2022, the Bank was in compliance with all of its capital requirements as follows:

	9/30/2022	
Well Capitalized Capital Requirement:	Amount	Percent of Average Assets
Tier 1 Leverage Ratio:		
Average Total Assets	$ 323,196,000	
Common Equity Tier 1 Capital	$ 28,840,000	8.92%
Common Equity Tier 1 Capital Requirement	16,159,800	5.00%
Excess	$ 12,680,200	3.92%
Risk-Based Common Equity Tier 1 Capital Ratio:		
Risk-Weighted Assets	$ 270,965,000	
Common Equity Tier 1 Capital	$ 28,840,000	10.64%
Common Equity Tier 1 Capital Requirement	17,612,725	6.50%
Excess	$ 11,227,275	4.14%
Risk-Based Tier 1 Capital Ratio:		
Risk-Weighted Assets	$ 270,965,000	
Common Equity Tier 1 Capital	$ 28,840,000	10.64%
Common Equity Tier 1 Capital Requirement	21,677,200	8.00%
Excess	$ 7,162,800	2.64%
Risk-Based Total Capital Ratio:		
Risk-Weighted Assets	$ 270,965,000	
Common Equity Tier 1 Capital	$ 28,840,000	
Includable Allowance for Loan Losses	2,743,000	
Total Tier 2 Risk-Based Capital	$ 31,583,000	11.66%
Total Risk-Based Capital Requirement	27,096,500	10.00%
Excess	$ 4,486,500	1.66%
Capital Conservation Buffer - Actual		3.66%
Capital Conservation Buffer - Required		2.50%

Legal Proceedings. On September 30, 2022, we were not involved in any legal proceedings or lawsuits that are not routine and incidental to our business.
